

Tired of YOUR Prescriptions Being Rejected at Pharmacy?

Interactive and easy to use, prescribers, clinic staff and patients can now determine individual criteria and coverage for branded medications with a snapshot of a patient's insurance card.

Accurate real-time responses indicating your patient's coverage and criteria requirements sent directly to you.

- The *point, click & submit* interface sends patient results directly to you within minutes.
- Help your patients avoid rejection of their prescriptions at the pharmacy.
- Empower and educate your patients.

Download 'is this DRUG covered?' for FREE at the App Store or Google Play.
